We build emotions.
Comfort packs for maximum safety.
Exclusive for discerning motorhome enthusiasts.

VARIO mobil

welcomes you.

In the belief that we coach-motorists discover new worlds with curiosity, courage and tolerance, each VARIOmobil is an exclusive unique with all modern conveniences. Custom built for you - for the best days of the year.

Your safety is our motive. With the introduction of the VARIO Perfect 1200 Platinum, the new model year begins. In the fine-tuning 2024, we have explored the entire range of technically possible options for you and built the very first motorhome with 4 slide outs.

A multitude of innovative safety and assistance systems are just as natural as the luxurious heating system and the rear garage in all 12-metre models.

Enjoy 100% PLANNING FREEDOM of floor plan, design and all equipment details. We are happy to realize your wishes with great attention to each detail and with more than 40 years experience in the automotive industry.

You are completely at home even when you are travelling in your exclusive motorhome

VARIO mobil

VARIO PERFECT

UNIQUE.
100 % CUSTOM MADE.

The VARIO Perfect

Exceptional luxury in the living area, pioneering technologies and maximum equipment variety characterize the VARIO Perfect.

It is based on the innovative chassis Mercedes - Benz Atego / Mercedes - Benz Actros, MAN TGL / TGM and MAN TGS.

The well engineered VARIO-double floor system is standard. Because of the raised drivers platform no motor cover disturbs between drivers and co-drivers seat. The total height of this vehicle type is at least 3,55 m.

The total length is 8 to 12 metres and the exterior width is 2.53 to 2.55 metres.

VARIO Perfect 1200

on the powerful front-engine chassis of MB Actros and MAN TGS, this body shape is suitable for 26-ton chassis with 3 axles.

This sporty luxury class provides the technical prerequisites for an exceptionally spacious rear garage, which as an option can accommodate your accompanying vehicle and even two e-bikes with a charging station on an extendable bike slide. No need to rearrange! Simply more mobility.

Great attention to detail and tailored individually for you. As a result, every VARIO mobil is a custom-made exclusive piece.

VARIO PERFECT

All vehicle prices are quoted **ex factory Bohmte** in the context of manufacturing a new vehicle.

* **Weight in working order means according to regulation (EU) Nr. 1230/2012:** unloaded weight including driver (75 kg), 90 % fuel, 100 % fresh water, 2 x 11 kg aluminium gas bottles, on board tool kit.

** **The payload according to regulation (EU) Nr. 1230/2012** results from the difference of the gross vehicle weight rating (GVWR) and the weight of the vehicle in working order including standard equipment.

*** **The number of seats with seat belt is depending on floor-plans.** Parenthesised data = optional equipment.

Optional equipment (extras / accessories) increases the weight in working order and reduces the payload. For the weight of the extra equipment please refer to this brochure.

The specified maximum permissible number of persons is depending on weight and axle load. It can be reduced when extras are mounted (= optional equipment / accessories), so in favour of the payload individual seats can not be used. If all seats shall be used, the payload has to be reduced partially. It is not allowed to exceed the permissible maximum weight (GVWR) and the maximum axle loads.

The load-carrying capacity is reduced by installing special equipment (= extras / extra equipment) and accessories. Moreover, the load-carrying capacity not only depends on the weight in working order, the actual vehicle mass, the weight of the accessories and the GVWR, but also on the respective axle loads. Prerequisites for using the full vehicle-technically possible payload is a corresponding relation to the axle load distribution.

The declaration of weight is approximately data. Variations of +/- 5 % in the range of craft tolerance are possible and allowed.

(1) The total height depends on the dimension/height of the storage room / garage / car garage
